

ILLUSTRATIVE EXAMPLE · EUR

Make room in the budget.

A worked budget for four friends, plus a blank sheet for your own trip. The amounts are examples, not destination prices.

€1,600

Estimated group budget

€400

Per person · four equal shares

Item	Group estimate	Per person
Stay	€720	€180
Transport	€240	€60
Food	€360	€90
Activities	€120	€30
Buffer	€160	€40
Total	€1,600	€400

The €160 buffer is money set aside, not an expense already paid. If it stays unused, nobody owes it as a shared expense.

Agree before you book

1. Agree who shares each cost. Equal shares only work when that is what you agreed.
2. Keep estimates separate from actual payments. Add personal purchases separately.
3. Review the total per person before booking; revisit it when plans change.

ILLUSTRATIVE EXAMPLE · EUR

A budget that fits your trip.

Agree what is included before anyone books. Replace the example with your own quotes and spending choices.

Trip name		People
